FCC ESTABLISHES FY2007 REGULATORY FEES

The FCC is required to recover \$290,295,160 in regulatory fees for fiscal year 2007. Regulatory fees that are payable annually, including fees for most broadcast facilities, are due no later than **September 19, 2007**.

The FCC has adopted the schedule of annual regulatory fees for FY2007 set forth in the table below. The fees for broadcasters are based on the population served by stations. The fee ranges for radio stations are contained in a separate table on the last page of this memorandum. Specific fees for each station will be posted by call signs later this month at www.fcc.gov/fcc-bin/callsign.pl.

The FCC is sending fee assessment advisories to broadcast station licensees and regulatory fee pre-bills to satellite and space station licensees. These notices may not be complete, however; letters to broadcast station licensees do not include annual fees for auxiliary facilities, such as remote pick-up stations and STL operations. Additional information concerning the payment of the

2007 regulatory fees is available at www.fcc.gov/fees/regfees.html.

Licensees that are required to pay annual regulatory fees must make their FY2007 payments no later than September 19, 2007. Licensees are encouraged by the FCC to pay regulatory fees electronically using the FCC's electronic Fee Filer software, available on the FCC's website. The window for payments will open on approximately August 15, 2007. All submissions must include an FCC Registration Number to be processed. Late payments will be subject to a 25% late fee.

If you have any questions concerning the fee payment procedures, have received an assessment notice with incorrect information, or would like our assistance in preparing the payment documentation, please contact us.
